

About the Offshore Wind Energy MBA

This international MBA program is focused on management qualification of the offshore wind energy industry in the North Sea region. All modules focus on industry challenges and are conducted by highly qualified academic teachers as well as industry experts directly from the Offshore Wind sector.

It is possible to book a single MBA module. From 2020 all the offered modules can be combined to gain a full Offshore Wind Energy MBA degree.

Admissions and Entry Requirements

To be a successful applicant of the Offshore Wind Energy MBA program, the candidate is already a professional with relevant work experience. Each application is considered individually and we welcome qualifications from various backgrounds.

The formal criteria is a bachelor or other equivalent degree combined with two years' work experience. If the applicants do not meet these criteria, they may still be considered if they can demonstrate other capabilities or relevant professional qualifications e.g. more than 5 years' business experience in the industry.

The Offshore Wind Energy MBA is an English-taught program and the modules are highly interactive. Candidates must show proficiency in English to successfully participate in the modules and go through extensive pre-reading.

INFORMATION

Offered in different locations in the North Sea Region.

All modules are conducted in English.

Developed and supported by cluster organisations and companies in Germany, Denmark, Belgium, UK and the Netherlands.

€ 2000 per module

Modules can be booked individually or compiled to a whole MBA degree.

Confirmed dates for modules can be found at www.owemba.com

MODULE II

OPERATIONAL LEADERSHIP

Program Description

The course is aimed at developing individual leadership skills for leading the self, others, teams and organizations. It also places leadership in the context in which it is executed and emphasizes existing research on what leaders actually do, which leadership practices seem to work and the implications of personality upon leader behavior. It is the aim to develop leaders in a wind industry environment drawing upon practical cases and problems and integrating the use of tools as negotiation strategy as a part of the operational leadership context.

Lecturer

Henrik Steffensen is a strategy consultant with a broad experience from the business life in general. He has a Master of Business Administration and Graduated Diploma in Business Administration.

He will be accompanied by Michael Bang, who is a director of the Hempel Academy and former director at Maersk Training. Michael also has a Master of Business Administration.

Module Structure

- **Module developed in collaboration with experts**
Representing both large and small medium sized companies from the offshore wind industry.
- **Professional application**
Real-life business case-based teaching
- **Flexibility**
2 x two-days-workshop and self-study before and between the workshops
