

About the Offshore Wind Energy MBA

This international MBA program is focused on management qualification of the offshore wind energy industry in the North Sea region. All modules focus on industry challenges and are conducted by highly qualified academic teachers as well as industry experts directly from the Offshore Wind sector.

It is possible to book a single MBA module. From 2020 all the offered modules can be combined to gain a full Offshore Wind Energy MBA degree.

Admissions and Entry Requirements

To be a successful applicant of the Offshore Wind Energy MBA program, the candidate is already a professional with relevant work experience. Each application is considered individually and we welcome qualifications from various backgrounds.

The formal criteria is a bachelor or other equivalent degree combined with two years' work experience. If the applicants do not meet these criteria, they may still be considered if they can demonstrate other capabilities or relevant professional qualifications e.g. more than 5 years' business experience in the industry.

The Offshore Wind Energy MBA is an English-taught program and the modules are highly interactive. Candidates must show proficiency in English to successfully participate in the modules and go through extensive pre-reading.

INFORMATION

Offered in different locations in the North Sea Region.

All modules are conducted in English.

Developed and supported by cluster organisations and companies in Germany, Denmark, Belgium, UK and the Netherlands.

€ 2000 per module

Modules can be booked individually or compiled to a whole MBA degree.
