

About the Offshore Wind Energy MBA

This international MBA program is focused on management qualification for the offshore wind energy industry in the North Sea region. All modules focus on industry challenges and are conducted by highly qualified academic teachers as well as industry experts directly from the Offshore Wind sector. The MBA is accredited by AQAS.

You can start the MBA program with any module as far as places are available. You as well book a single module.

Participants study part-time alongside a full-time job in the offshore wind industry.

Admissions and Entry Requirements

To be a successful applicant of the Offshore Wind Energy MBA program, the candidate is already a professional with relevant work experience. Each application is considered individually and we welcome qualifications from various backgrounds.

The formal criteria is a bachelor or other equivalent degree combined with two years' work experience. If applicants do not meet these criteria, they may still be considered to participate in a module if they can demonstrate other capabilities or relevant professional qualifications e.g. more than 5 years' business experience in the industry. However, they cannot graduate with the MBA degree.

The Offshore Wind Energy MBA is an English-taught program and the modules are highly interactive. Candidates must show proficiency in English to successfully participate in the modules and go through extensive pre-reading.

INFORMATION

Offered in different locations in the North Sea Region.

All modules are conducted in English and require face-to-face participation in the workshops.

Developed and supported by advisory boards in Germany, Denmark, and the Netherlands.

€ 2000 per module
€ 20000 for the complete MBA

Modules can be booked individually or compiled to an MBA degree.

Dates of the modules can be found at www.owemba.com

MODULE V

ECONOMICS OF OFFSHORE WIND FARMS

Program Description

This course will teach the participants to financially and strategically model different scenarios taking most of the variables affecting the lifecycle of offshore wind projects into consideration. The skills to be developed are aimed at increasing the predictability in the economic effects that a decision will have in the overall lifecycle of a wind farm.

Lecturer

Prof. Dr. Marita Balks is professor for investment and finance at Hochschule für Technik und Wirtschaft (HTW), Berlin, Germany

She will be accompanied by Tobias van Baarsen from [Green Giraffe](#) - a renewable energy finance specialist with a global presence and expertise in the field of project & corporate finance, M&A, tendering, contracting and legal. Green Giraffe will provide an interactive case study which the participants will work out during the workshops in order to bring theory into practice.

This module is realized in cooperation with DOB Academy, Delft, NL.

Module Structure

- **Module developed in collaboration with experts**

Representing both large and small medium sized companies from the offshore wind industry.

- **Professional application**

Real-life business case-based teaching

- **Flexibility**

2 x two-days-workshop and self-study before and between the workshops

Practical Details

Two face-to-face workshops with participants from all over Europe working in the Offshore Wind Industry will be conducted in Bremerhaven.

Information about the registration deadline and the dates of the workshops are available at <https://owemba.com/information/>
